Orlando Bojorquez Preciado

Information Systems Engineering Student · QA / Testing Intern

GitHub: github.com/orlandouni
LinkedIn: linkedin.com/in/orlando-bojórquez-preciado-299b06362

PROFILE

Seventh-semester Information Systems Engineering student at Universidad de Sonora with a 95.93/100 average. Experience developing and maintaining production web applications, diagnosing technical issues, and supporting users. Currently completing Tester training and seeking a QA/testing internship where I can apply analytical thinking, SQL knowledge, attention to detail, and a user-focused approach.

EXPERIENCE

Junior Web Developer · Simetria (Remote) | 2025 – Oct 2026

- Contributed to development and maintenance of Cinemall.mx, a live movie theater website and app, using C# and ASP.NET Core MVC.
- Implemented QR-code redirection, legal pages, a presale section, and UI improvements; helped diagnose technical issues.
- Built and deployed simetria-agencia.com with Next.js, TypeScript, and AWS; managed admin-panel content and collaborated with the development team.

Sales & Customer Service Agent · RH Solutions | 2023

- Served international customers in English, followed up on cases, and recorded information in internal systems while working under pressure.

PROJECTS & ACHIEVEMENTS

MiUni
Co-developed a university web platform with an interactive campus map, place search, route calculation, and conversational assistant. React frontend; .NET backend integrated with PostgreSQL and a Python-based RAG service.

Buho Go
Academic proposal for a campus ordering platform with nearby-business catalogs, advance orders, preparation estimates, ready notifications, and optional campus delivery.

Smart City Hackathon
Top 10 finalist.

Cinemall.mx
Production movie-theater website and app; contributed with C# and ASP.NET Core MVC.

simetria-agencia.com
Production agency website built with Next.js, TypeScript, Tailwind CSS, and AWS Amplify.

Point-of-sale systems
C# Windows Forms application using layered architecture and GDI+ ticket printing.
